*"****Tight playing, memorable melodies and a gutsy sense of red clay rebelliousness found all too rarely in pre-packaged contemporary blues rock."
~All Music Guide*

Dear Music Editor/critic,

I'm thrilled to be able to send you the enclosed *Hell Bound Train*, on Red Parlor Records from the soulful, double slide, Southern rock combo Delta Moon. The cd is set for an April 6 release. There are many contemporary blues rock bands out on the rock and jam scene today, but few are able to pull off the level of tight playing, top notch songwriting and earthy sounds of Delta Moon.

Based in Atlanta, The Chicago Sun Times writes "(Tom) Gray and (Mark) Johnson's double-slide style works to perfection". The band has a raw, heartfelt, gritty and soulful sound carrying the listener deep into the heart of the American South. Gray, best known for his time with the rock band The Brains and his songwriting (incl. covers by Cyndi Lauper, Manfred Mann, Bonnie Bramlett, Carlene Carter and more) discovered the slide guitar in the 80's and hasn't put it down since. He and Johnson create a singular sound which thrills both blues and non blues lovers alike. Despite the strong songwriting, Delta Moon's music elicits a visceral reaction from the listener – it reaches down deep and makes you want to move, yet feel rooted at the same time.

I hope you can check them out.

Enjoy,
